FIRE DESTROYS AGOSTA DEPOT AND ELEVATOR

Also Ice-House, Poultry House, Coal Shed and Corn Crib.

EARLY MORNING BLAZE CAUSES LOSS OF $20,000

Marion Fire Department Called. House in Vicinity Threatened with Destruction.

Agosta, O., April 6.—Special.—Fire of unknown origin completely destroyed the Standard Grain Exchange elevator, coal shed and contents owned by the elevator, the Big Four depot, and the poultry house and implements belonging to G. C. Yoder, at 3 o'clock this morning at about 3 o'clock.

The fire started in the cupola of the elevator, a towering frame building, and quickly spread to the other buildings, all of which were located along the Big Four tracks.

The books, freight and some of the office fixtures of the depot and 250 gallons of kerosene belonging to the elevator company were saved.

The Loss Placed at $20,000.

The loss on the elevator is estimated at $20,000 and is covered with insurance. The depot is also covered with insurance. The building belonging to Mr. Yoder are valued at about $400 and are not insured.

Fire department No. 1 from Marion responded to a call for help, but was unable to give much assistance, as the fire had gained considerable headway. A number of residences in the vicinity of the fire were threatened.

Of Interest to Women

A prominent physician says that by far the largest number of women's ailments are not surgical ones, that is they are not caused by serious displacements, or growths. Symptoms similar in character are often brought about by much simpler conditions. We therefore urge every woman who suffers from backache, headaches, bearing down pains, side ache, irregularities, nervous despondency, or weakness to give Lydia E. Pinkham's Vegetable Compound a trial. It acts as a natural restorative and often prevents more serious troubles.—Adv.

UNCLE SAM CONFIRMS ARRIVAL OF SPRING

Pape New Straw Lids of the Letter Carriers.

Have you noticed how industrious the city mail carriers are lately? Got a style all their own.

Nobody's going to copy them—everybody's got the limit.

Yesterday was the first day the new mail-carriers' hats were worn in Marion, and it is needless to say that they attracted much attention. It would be too difficult to describe these hats—except to say that they look like they are made out of straw and covered with a peculiar color of paint that, instead of absorbing the sun's hot rays, will throw them off into space.

However, the mail carrier's new straw hats serve a much more useful purpose—that of giving Uncle Sam's confirmation to the patent fact that spring in all its vernal glory really is here.

If one should search the records back as far as when Father Time Baker first open that leaky can-strike in founding Marion, he would not find that this community of live ones had ever enjoyed the blessings of a prettier April day than today.

The Star's star weather-observing young reporter will leave it to you now—go search the records, or quiz the bird known as the oldest inhabitant.

DECISIONS ARE EXPECTED SOON

New York Central Wage Case Before Labor Board.

RESULT OF HEARING ANXIOUSLY AWAITED

First of Six Wage-Reduction Cases Presented to Railway Labor Board.

Chicago, April 6.—Decisions of the United States railway labor board on the request of the New York Central railroad for a flat reduction of twenty-five per cent in wages paid to its common laborers, is expected either late today or tomorrow, members of the board intimated, today.

Although reports were current that the majority of the members of the labor board would favor a denial of the New York Central's request for a temporary ruling on the wage reduction and would order that "the road proceed with the case on its merits," no confirmation was available today.

The decision is considered of prime importance to other railroads, because it is the first of the six wage reduction cases presented to the board. The contemplated reduction, officials of the road told the labor board, would affect savings of $300,000 daily in its labor outlay. The road's petition asks that any temporary decision in its favor be made retro-active.

ALICE ROBERTS DISCUSSES THE EAST

Woman Member of Congress Talks of Cigarets and Skirts.

Washington, April 6.—Representative Alice Mary Robertson, Oklahoma woman member of congress, today gave a graphic description of the differences between the East and the West, and why she prefers the latter.

When it was suggested that the people of the Southwest with roughly one-seventh of the population of the United States, were more progressive than the women in Washington and New York, the Oklahoma congresswoman replied:

"You can see plenty of women in the Southwest with rouge and cosmetics that they could to be sure of them use them more openly than the women in Washington and New York. The people out there are going to let the East get ahead of them in anything if they can help it.

"I don't call the extreme styles in the bodice of the dress and skirt too much interest. If the women in general, they would attract the men, but they don't. They disgust them. Women dress that way not to attract the men, but to get ahead of one another.

"Maybe you've noticed that the women with the scrawniest necks and legs who wear the lowest waists and shortest skirts.

"The first time I saw women smoking was in New York, while I was staying at the National Arts club. It was interesting. If women want to smoke, that's their business. They don't hurt anyone but themselves. The men think it's disgusting."

ERRORS FOUND IN DUNN BILL

Delay It Being Brought Up for Passage.

REPUBLICAN SENATORS DISCUSS MEASURE

Teacher Appears Before Senate Committee Urging Defeat of McCoy Picture Bill.

Columbus, April 6.—The Dunn bill, providing for reorganization of state departments, is not expected to come up for passage in the senate until tomorrow. It was expected to reach a vote today. The delay is due to the discovery of a number of errors in the bill as it passed the house. The Republican senators are scheduled to caucus, today, with a view to determining their attitude toward the measure.

The senate passed the bill by Senator Brand, Champaign county, levying a state tax of .15 of a mill for weak school districts; the bill by Senator Burke, Lorain, providing for the education of crippled children, while in hospitals for treatment and the measure by Senator Jones, Meigs, appropriating $15,000 for the display and protection of Ohio battle flags used in the recent World war.

Appearing before the senate judiciary committee, Mrs. A. B. Neiles, president of the Council of the Parent-Teacher Association of Ohio urged the defeat of the McCoy bill, prohibiting the showing of motion pictures containing crime scenes.

Urging strict enforcement of existing laws and regulation by parents of the attendance by children at movies, she said public sentiment will not support the McCoy bill and that it can not be enforced.

J. A. Maddox, Columbus, president of the Ohio Moving-Picture Exhibitors' association, opposing the bill, said the trouble lies with the state motion-picture censor board which, he said, is not functioning properly.

The senate finance committee has decided in favor of raising the salaries of superintendents of state hospitals to $5,500 a year. They now receive from $2,500 to $3,000.

Authorities Announce Uncovering of a New Baseball Gambling Concern.

Cleveland, April 6.—Energetic measures to stamp out gambling on baseball in Cleveland and other cities were taken this morning, when two police raids, directed by Chief of Police Frank W. The first raid was conducted at a printing shop, about midnight. When the police entered, they found the presses working printing the pool tickets, it is said. Here more than 500,000 tickets were seized. The second raid was at a Scranton avenue roadhouse, where more tickets were seized and the alleged leaders of the plan arrested.

EXECUTIONER AS WITNESS

To Tell Story of Killing of Eleven Negroes.

ACTS UNDER ORDERS OF HIS EMPLOYER

Trial of Man Who Operates a "Slave" Farm in Georgia Draws a Big Crowd.

Covington, Ga., April 6.—The ... of how eleven negroes went to their deaths was expected in Newton county's courthouse here today and a crowd of murder fans were on hand, early today, following the promise of attorneys for the state in the trial of John Williams, that Clyde Manning whose alleged confession brands him as executioner of some of the eleven, would be placed on the stand today.

Manning was expected to detail how he knocked these negro workers in the head with an axe, on orders from "Mist' Johnny," or reported them to bridges over the Yellow and Alcovy rivers, fastened weights about them with chains and then shoved them off into the water. The story was expected to be sufficiently gruesome for any of its hearers, for Manning showed great powers of memory when he unerringly led a party of twenty-five men to places where five of the unfortunate negroes had been buried and then pointed out the spot in the Yellow river where three others had been drowned. Corn had been planted over the lonesome, shallow graves, but Manning found them anyway.

A WATERFORD MAN COMMITS SUICIDE

Kills Himself After Confessing Part in Daughter's Death.

Marietta, April 6.—The Rev. J. H. Mindling, forty-nine, minister of the Methodist Episcopal church, of Waterford, this county, committed suicide in the court house here at noon, today. He had just stepped out of the court room where an inquest was being held on the death of his daughter, Miss Elizabeth Mindling, nineteen, where he had confessed that he had performed a criminal operation that resulted in her death, last Thursday.

Sheriff Roberts had started for the jail with Mindling, but left him alone for a few minutes. When he returned, he found the minister lying on the floor breathing his last. Beside him lay an empty three-ounce bottle that had contained carbolic acid.

Death of Miss Mindling had created a sensation in her home community. She was a school teacher and had a splendid reputation. When she died, members of the family announced that her death had been caused by a fall in a bath tub and they objected strenuously to the entrance of Coroner Guyton into the case. Her father was holding revival services at Belpre at the time.

LABOR RADICALS RULE ROADS, FISHER SAYS

Idle Factories Until Railroad Wage Question Is Settled.

HOCKING VALLEY GENERAL AGENT DECLARES HERE

Tells Chamber of Commerce That Adamson Law Is Bluffed Through Congress.

Charges that the railroads are now controlled by radical labor leaders, that government control during the war brought extravagance and waste and that the 156 rules of the national agreement form 'the most cunningly-devised set of rules for getting something for nothing' ever gotten together, were voiced by W. H. Fisher, Columbus, general passenger agent of the Hocking Valley railroad in an address at the weekly noon luncheon of the chamber of commerce in the Y. M. C. A. building today.

Mr Fisher declared that the railroads are now on dangerous ground. "I am telling you these things," he said, "because you are interested as much as the men who run the roads. You never heard of or saw the time when industry alone enjoyed prosperity, or when the railroads alone were prosperous. Because of their dependence upon one another, prosperity must come to industry and railroads at the same time."

Bluffed Through Congress.

Mr. Fisher charged that the Adamson law was "bluffed through congress" and its adoption was followed by government control" with all its extravagance and waste." He then told of the formation of the national agreement, which he declared was the work of the radical labor instances which he said government control and the national agreement leaders and he outlined a number of operated unjustly.

"Until the question of railroad wages is settled and settled rightly, your factories are going to remain idle," Mr. Fisher asserted in order to illustrate that the prosperity of the railroads is the concern of all. He stated that the appeal of the roads for the abolition of the national agreement has been refused. The roads asked this because they would rather deal with their own men than have some representative from San Francisco or some other far-removed point come in and tell them what to do," Mr. Fisher said. "You would not want that to take place in your business. You would want to settle your problems with the men who are working for you." He stated that the only penalty provided for violation of the national agrement is the investigation and publication of all the facts. "If the crisis comes it may be necessary for the railroads to take independent action and I want you men who help to pay the bills know the facts," Mr. Fisher said.

Mr. Fisher was accompanied by a number of Hocking Valley officials, who were introduced by C. S. Rapp. Mr. Rapp also introduced the speaker.

About thirty were present last evening and Miss Florence Burdg was elected president and Miss Marie Jones, secretary.

The object of the club is to get business women of the city interested in club work of some kind and for that reason the organization will be divided into various departments, each taking up some particular line of study, and the becoming members can enter any one of these departments, taking up whichever line they prefer.

The first meeting of the club will be held next Tuesday evening at the library at 7 o'clock when the organization will be completed.

Miss Anderson later told her friends that the wedding would take place in October.

Church Campaign Captains.

Plans for a campaign to assist the building fund of the church were made at a meeting of the Young People's auxiliary of Calvary Evangelical church Tuesday evening at the home of Mr. and Mrs. Harry Mier of Summit street. FEDERATION CAMPAIGN TO BE WAGED FOR HOME

Four More Clubs Admitted, Making Twenty-Two.

HOME-TALENT PLAY TO BE GIVEN IN MAY

Federation Will Pay Expenses in Undernourishment Experiment with School Pupils.

At the regular monthly meeting of the Marion County Federation of Women's clubs, Tuesday afternoon, the report of the executive board endorsing the project of procuring a club home, was accepted by the federation and plans were made for an extensive campaign to be carried on during the summer months, looking to the raising of funds for such a home.

Four clubs were admitted into the federation, Tuesday. They are the Three Arts, Interfolio, Quest and Le Mercure, making in all twenty-two active organizations. Mrs. E. H. Bindley, chairman of club extension, has been instrumental in organizing and bringing in six new clubs for the federation the past winter and she organized another — a Business Woman's club — Tuesday evening which will probably be taken into the federation at its May meeting.

Federation Play.

Mrs. Lewis Uhl, chairman of the finance committee, announced that a home-talent play will be given at the Grand theater May 16 and 17 under the auspices of the federation. The talent is being arranged and tickets will be distributed to the members and put on sale at the May meeting. There will be two evening and one afternoon performance.

The Central district conference of the Ohio Federation of Women's clubs was announced to be held at Coshocton April 28 and 29 and the following delegates and alternates were chosen:

Mrs. W. H. Harter, Mrs. John H. Guthery and Mrs. E. A. Thiel, delegates, and Mrs. S. L. Leeka, Mrs. H. K. Mouser and Mrs. G. E. McCormick, alternates.

A motion prevailed that the federation pay all the expenses for the experiment to be carried on by the school nurse, Miss Clara Bahre, at the Silver Street school building during April and May.

How It Will Be Done

During these months about fifty children found to be ten per cent. under weight will be given a small bottle of milk and a cracker each morning at 9:30 o'clock. It is hoped that from the statistics obtained from this experiment to determine the value of this service to the children in all the school buildings during the next school year.

Preceding the business meeting Tuesday, a short musical program was given, opened with a trio by Mrs. W. D. Clark, Mrs. Thomas Kerrigan and Mrs. Emma Uhler Voorhees, who sang "Song Birds Are Singing." After a violin solo by Miss Clara Leffler, Mrs. W. N. Harder sang "The Violet," by Woodman, and "A Little Pink Rose," by Carrie Jacobs Bond. Community singing followed.

About ninety members responded to roll call.

Mrs. Harvey Berringer, Miss Margaret Almendinger and Otto Schlegel were appointed a committee to draft resolutiones on the death of Frank Ebert.

THE HUB OF COMMERCE.

Daily Proverb—"Men may blush to hear what they were not ashamed to act."

For a lover of peace, Mr. Ford goes around carrying a mighty big chip on his shoulder.

We have seen so many of our neighbors lugging home spades and rakes, this week, that we more than half anticipate an intensive gardening campaign by their better-halves

Upon second thought, former King Charles concluded that maybe it would be the part of good judgment to go while the going was good.

It may be said that, while many vaunted medicines for what's ailing the country have been proffered the gentle hen points the way to the only one that will bring a speedy recovery to the patient.

One is just bound to wonder a bit regarding where responsibility for the war would have been placed had Wilhelm won.

And to think that the man who is endeavoring to stir up race discord in this country is the identical man who hired a ship to go over to Europe and "get the boys out of the trenches by Christmas!"

We see that a blizzard hit Idaho yesterday, but we refuse to let the weather bureau scare us again. We continue in the view that the fruit is safe in spite of it.

If the United States still owes France money loaned by Louis XVI, it just about goes to prove that the French have been in a comatose state ever since.

It's just possible that Europeans get the idea that we, as a people, are easy from the manner in which we give good coin to hear indifferent foreign lecturers.

There are still some people talking about equality of rights for the sexes, but what man will feel like indulging in his inalienable right of free speech when the women smokers invade the smoking-rooms on the Pullmans?

It's a wonder that the thought never struck Mr. Gompers that the world may begin to wonder, one of these days, what causes the mighty opposition to labor unions he is palating from day to day. Isn't it just possible that he is overdoing the business?

MR. LEWIS AND "MAIN STREET."

Sinclair Lewis, author of "Main Street," does certainly hit the little towns of this country pretty hard in his book. The folks in New York who are supposed to hand out the literary standards for the rest of the country think he's just awful realistic. They ought to know, for the majority of them who amount to much of anything came from small towns

It all depends on what you see on Main street Mr. Lewis saw a lot of dullness, tedious inhabitants, vacant minds and smugness—the horrible slime of smugness covering everything.

Now maybe if you're old-fashioned, and remember "Tom Sawyer" and old Ed Howe's book "The Story of a Country Town," you have a slightly different impression Perhaps you have thought some American small towns and small cities were pretty good, anyway. What you see depends on what you're looking for

"A savorless people, gulping tasteless food and sitting afterward, coatless and thoughtless, in rocking-chairs, prickly with insane decorations listening to mechanical music, saving mechanical things about the excellence of automobiles, and viewing themselves as the greatest race in the world." That's what Mr. Lewis says of the folk of Main street.

He's partly right, too. If you want to hear the truth about yourself, go to a critic, not a friend. But Mr. Lewis' indictment, unhappily isn't wide enough. It should be extended to the whole human race. We are dull We are stupid. We are far too self satisfied Let's stir our sluggish minds a little, and thereby work a blessing from the curses put upon us

Sketches from Life ∴ ∴ By Temple

Why They Were Late for School

IN FAIRNESS TO ALL.

There will be no material dissent from the plea of Vice President Coolidge for a fair deal to labor. Particularly is this true with the return of the Republican party to control of the policies of the government Maintaining the high standard of living, providing work for all and keeping the dinner pail full has been a long-established policy of the Republican party, and, in normal times that has been the only party to accomplish the desired result It is true that during the war the laboring man's pail was full, as also was his pay envelope, with the Democratic party in power, but no one has been so dense as to attribute the condition to Democratic policies

But while the Republican party has always been the friend of the American laboring man, it has never declared or practiced the policy of favoring labor to the disadvantage of any other class of people It has never believed that in the end special favors to any one class are a benefit to that class or the country, for eventually there must be a reaction from any unfairness or discrimination

At the same time that the Republican party undertakes to do everything possible and proper for the working man, it expects the working man to deal fairly with the public—with all the people of the country "A fair day's work and a fair day's pay" and, conversely, "a fair day's pay for a fair day's work" is the rule that must be maintained. During the war there were innumerable evidences that under the protection of organized labor many workmen shirked on the job, particularly in shipyards and on other government work, thus delaying the full participation of the United States in the prosecution of the war There are many indications that now, in various well-organized occupations, production is limited by studied discouragement of effort.

There is no need to go into details Neither is there a disposition to place blame upon workmen only Quite likely employers have been unfair and contractors have frequently formed conspiracies for the purpose of imposing excessive charges upon the people who construct houses, apartments, or office buildings If so they deserve condemnation and punishment But two wrongs can not make a right

The task before the nation today is to get back to normal—to reestablish the free operation of the law of supply and demand with encouragement of enterprise and industry, so that there shall be work for all and a supply of food and other commodities sufficient for all at reasonable prices. The country has suffered from the interference and obstruction of the war-time period and wants individual freedom restored It is time to take off the brakes—to open the door of opportunity To the plea for fair dealing for the working man, Mr. Coolidge here properly urges that the consumer be kept in mind—and the consumer includes the entire country the public. The public is interested in a fair day's pay and a fair day's work, with special favors for none

It's hard to escape the conclusion that the man judge, who recently held that the husband is the head of the household is a bachelor

Dr. Wiley wants to be remembered for the pure food harm [illegible] beer will do the nation's thirst than the amount of money the doctors will be able to pull down for not the prescription

LIFE'S VAUDEVILLE.

(By James Hall Naylor)

IT WAS A FAILURE.

Down at Norfolk, Virginia, the owners and managers of the iron working mills and shops decided to go to an "open shop" basis

This decision, naturally, displeased the union labor organizations whose members were employed in these industrial places

The International Association of Machinists, a labor organization, purchased the Crescent Iron works, of Norfolk, and began to operate it on a strictly union plan

This move on the part of the iron workers was quite proper and right.

They were acting within their own province

They were keeping within their own rights and privileges

They had as much right to own and run an iron mill, as had anybody else who could raise the money to enter upon such an enterprise.

But did these union men succeed?

Did they make the business pay?

Did they make a profit upon their investment?

Were they able to buy raw materials, pay for labor, manufacture a product—and market it to advantage?

The answer to all these questions is—no

The business is bankrupt; the Crescent Iron works are closed

One swallow doesn't make a summer, of course

One failure doesn't determine that success may not be achieved, to be sure

Other industries owned and run by union labor may prove successful, profitable.

But the prospects are not flattering

And there are reasons

To do a certain thing requires certain fitness to do that thing.

To make a success of a certain enterprise calls for certain natural abilities and acquired qualifications.

Says the editor of The Week Columbus, Ohio, writing on the subject:

"There are numerous obstacles to the success of a movement of that kind In the first place, there is the continuous deterring influence of the old principle that 'what is everybody's business is nobody's business' To buy raw materials at the best advantage buy what is certain to be needed, seek business where it can be obtained at profitable rates, make contracts on most advantageous terms, secure loans at low rates of interest when needed for emergencies, and manage production in such a way as to cut costs—all these are things that must be worked out successfully by the manager, or there is failure ahead A manager who has his capital invested—his all—is certain to give to these essential problems the best that is in him In a different position is the manager who is only one of 200 or 300 equal investors He does not live or die, financially according to the success of his management

All rational—and all true

Too many cooks spoil the broth

Mutual interests too often lead to mutual mismanagement.

It is a notorious fact that public works always cost more than private works

And cooperative enterprises are too often run at a loss

Unrestricted selfishness is a bad thing

But the selfishness of the many is worse than the selfishness of the few, frequently.

Industrial socialism may be a lot more probable—and not

Is Your Back Giving Out?

Is a bad back making you miserable? Are you tortured with a dull, wearing backache, and sharp, stabbing pains? It's time then, you looked to your kidneys. A cold, a strain, or overwork has probably weakened your kidneys and brought on that nagging backache, those headaches, dizzy spells and kidney irregularities. Don't wait for some serious trouble. Use Doan's Kidney Pills. Your home folks recommend them. Ask your neighbor!

A Marion Case.

Mrs. W. A. Huffman, 459 George St., E., says, "Whenever I have taken cold it has gone to my kidneys and brought on attacks of lame back. When I hung up clothes, sharp pains caught me in the small of my back. I was annoyed by kidney weakness, too. I used Doan's Kidney Pills from L. M. BISHOP DU MOULIN CONFIRMS CLASS

And Preaches Anniversary Sermon at St. Paul's Church.

The altar of St. Paul's Episcopal church was beautifully decorated with spring flowers and palms for the celebration of the tenth anniversary of the ordination to the priesthood of the rector, Rev. C. Bertram Runnalls and the confirmation of a class of thirteen candidates, Tuesday evening. During the social hour preceding the supper which was served at 6 o'clock in the parish house Rev. Mr. Runnalls was presented a mahogany sick-call case containing two candles, a crucifix chalice paten bread box and wine cruit from the members of the parish. Mrs. Runnals was presented with a beautiful basket of flowers.

Bishop Frank DuMoulin, bishop coadjutor, confirmed the class and delivered the anniversary sermon at 8:15 o'clock. Following the confirmation service, Rev. Mr. Runnalls renewed his ordination vows before Bishop DuMoulin, who said in part:

"When Christ looked out into the ... of human need and saw the suffering of humanity He then appointed an order of men that they might carry on His ministry to the end of time. There is a similarity between the work He did as prophet, Priest and King and the modern man of God in the ministry of the church because God has created the similarity.

"There was a time when the office of prophet was that of information; people went to church to hear the news. But that day is past. There also was a time when the office was regarded as one of recreation by the people. They came to be carried away with the oratory, the unusual interest and because they liked to be amused. This, too is passing. The preacher of today stimulates the deeps within you and makes you wish to be better. The priest stands between the world and God, stands before the altar interceding for your needs."

Those receiving the sacrament of confirmation were: William Hans Rapp, Frances C. Jennings, Elizabeth B. Morgan, Dorothy Dumble, Marjorie W. Erre, Martin Luther Dumble, Douglas W. Rogers, David Wager, George Christian, Dombaugh, Walter A. Lockwood, Roy L. Durr, Guy C. Stoltz and Guy C. Stoltz, Jr.

Dark Horses

New York, April 6.—A [illegible] of dark horses are entered [illegible] to grab one of the pennants. This is the baseball situation in St. Louis where the fans are so used to disappointments they have long since ceased to make predictions. With the baseball season due to open a week from today it is safe to record that the Browns and Cardinals are very much in the dark horse class—teams that seem destined to command wholesome respect from the best clubs in both leagues. Of the two the chances of the Browns look a trifle the better though they will have a stiff opposition in New York and Cleveland than any National league club should give them. Lee Fohl's team is in great condition. Fohl has a club with great batting power. It led the American league in 1920 with a team average of .29[illegible]. Its hitting this season promises to be just as strong as ever.

AN INDEPENDENCE DAY CELEBRATION IN MARION

It Will Be Staged by the American Legion.

PLANS FOR RAISING LEGION HOME FUNDS

Marion Voiture, No. 48, Society of 40 Hommes et 8 Chevaux, Is Instituted Last Night.

McGinnis Post, No. 162, American legion, will promote an amateur boxing and wrestling tournament open to residents of the county, according to plans adopted at the regular meeting of the organization, Tuesday evening, at the armory. It was also decided to conduct an Independence day celebration and to show some official World war pictures as the next benefit performance for the building fund.

First trials in the amateur boxing and wrestling tournament will be held the latter part of this month, and the successful contestants will go to Cleveland for the state amateur championship contests, July 4.

Official World war pictures are to be shown under the auspices of the post at the Marion theater, May 9 10 and 11. These pictures, taken by the Signal corps, will include two special reels of the Thirty-Seventh and Forty-Second divisions.

All plans for the raising of funds for the legion home fund have been placed in charge of a committee composed of W. E. Hane, chairman; Ray Miller, M. H. Dickerson, George A. Larie and Eugene Thomas. It was announced last night that this committee will inspect a number of prospective sites and have them appraised by the Realtors' association.

Memorial Day Plans.

In discussing Memorial day plans it was decided that a representative of the post will meet with the general Memorial day committee. R. H. Waddell is chairman of the committee on decoration of graves. It was also announced that the first meeting in May there will be a social in charge of a committee composed of P. H. Hocksietter, Carl Ebert and Ralph Hull.

Following the meeting of the post Marion Voiture, No 48, Society of 40 Hommes et 8 Chevaux, was instituted with the instruction of fifteen in the work of the order and election of officers. John W. Mason was named chef de gare and R. C. Snare was chosen correspondent et commissaire.

It was decided that the voiture will hold regular meetings on the second and fourth Tuesdays of the month at the armory. At the first regular meeting next Tuesday night a class will be initiated.

This organization, open to all members of the legion, is similar to the side degrees of certain lodges. The name was taken from the sign on the French box cars used for troop transport. Marion voiture is sponsored by Columbus Voiture No. 1, the largest in the country.

FRANK B. MINYOUNG VICTIM OF TUBERCULOSIS

Funeral Will Be Held Thursday at 3 P. M.

Frank Burnette Minyoung, aged fifty-six years, died of tuberculosis at his home, No. 290 Pennsylvania avenue, yesterday afternoon at 4:40 o'clock, following an illness of ten years, over nine of which he was helpless.

Prior to his illness Mr. Minyoung was a stonecutter for Leffler & Bland. He was born at Beavertown June 2, 1864, a son of Mr. and Mrs. Lafayette Minyoung and was married at Versailles in 1892. He had resided here twenty-eight years and was a member of the Church of the Brethern. The widow and four children—Mrs. Ray Jenkins, of Celina; Mrs. H. F. Miller, Damon and Roger Minyoung, of this city, survive. Mr. Minyoung also leaves a brother, Amer Minyoung, of Wayland, Portage county, and a sister, Mrs. Della Corbin, of Diamond, Portage county.

The funeral will be held at the Church of the Brethern on Reed avenue, Thursday afternoon at 3 o'clock following a short prayer at the home at 2:30 o'clock. Rev. Mr. Cool, of Beaver Dam, will conduct the services and interment will be made in the mausoleum, east of the city.

CITY IN BRIEF

Every Little Bit Helps.—One illegal trainrider was arraigned before the mayor this morning. On pleading guilty to the charge he was given the customary fine of five dollars. In default of payment he was put to work on the streets.

Costol to Workhouse.—F. G. Costol, sentenced to six months in the Dayton workhouse after pleading guilty to a statutory charge in the mayor's court, was taken to the workhouse by Officer Wren today to work out the sentence and costs.

Two Building Permits. — Two building permits were issued by the city clerk, Tuesday. H. E. Crawford secured one for a barn on east Farming street at an estimated cost of $500, and the other was secured by C. R. Waddell for a residence addition on Reed avenue at an estimated cost of $200.

Mrs. Lemuel Donaugh Surprised.—Mrs. Lemuel Donaugh was given a surprise party Tuesday evening at her home on Bellevue avenue, the occasion being her birthday. There were about fifteen neighbors and friends present.

Not Giving Out Figures. — As a result of the one-day membership drive for the Y. M. C. A. staged yesterday, the total membership in the association is 951. The membership in the senior department is 654 while the junior department membership rose to 310. Secretary O. H. Carrier stated this morning that the goal of 400 new members had not been reached and that he did not care to give out the exact number enrolled by the committees yesterday.

When's a Burglary a Burglary?—Report was made to the police Tuesday night that the confectionary store of Ralph King on Silver street had been broken into. Officers went to the place and found a window and the back door open. Two boxes of cigars were found on a bench outside. King was later found and, after going through the place, informed the officers there was nothing missing. When informed of the finding of the cigars King stated they must have been stolen some other place, but his name was on the boxes.

Pays for Obey Law.—William J. Vires was arrested Tuesday afternoon on two warrents, one charge being filed against him by Deputy Sheriff D. Scott Bell for harboring two dogs for which licenses had not been taken out and the other being filed by Humane Agent J. H. Eymon charging him with unlawfully torturing Sarah E. Hushey, aged seventy-five, by retaining her barn against her wishes and keeping his dogs in the barn to her annoyance at nights. When arraigned before Mayor T. E. Andrews, Vires entered a plea of guilty to the charge of harboring dogs without their being licensed and was fined $25. He pleaded not guilty to the second charge and his hearing was set for this afternoon.

DR. LINCOLN M'CONNELL, DELIVERING THE GOODS

Last Numbebr of High School Entertainment Course.

The Harding High school entertainment course came to a close last evening with the appearance of Dr. Lincoln McConnell a noted lecturer. Dr. McConnell first won the interest and attention of his audience and started his lecture by relating a witty story. From this he very cleverly plunked into his theme, "Delivering the Goods," and he asserted that the world does not owe a living to any one, but the only thing that the old world was indebted to any one for was a grave. He went on to say that the mind is the measure of a man and that mind development and mental muscle was only obtainable through hard work. The four steps in the training of the mind which would enable one to deliver the goods, he said were, attention, concentration, classification and recollection. After elaborating on each of these points he brought his speech to a close by saying that the trained mind and body would be useless to the betterment of society and the furthering of any great work or, in short, the goods could not be delivered, unless all these good qualities were backed up by plenty of well controlled and never-ceasing action. This number was one of the best, if not the best, on the entire program and proved to be a fitting close to this season's course.

The entertainment course this year is considered a success and it is believed that an even bigger and better program will be presented by the senior class next year.
